Any way you look at surfaces,

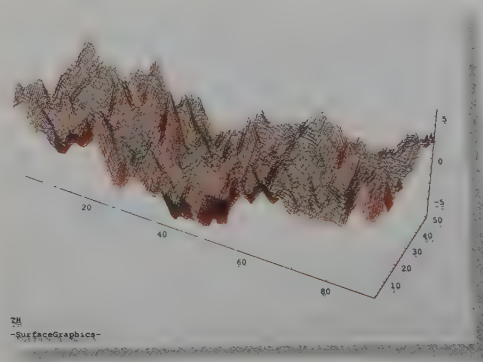

From measuring simple roughness parameters (Ra, Rz, Rmax, Rt)...

to advanced roughness parameters...

to profiling and roughness measurement...

to sophisticated analysis of surfaces.

nobody measures up to Hommel.

If you're looking for superior surface measurement solutions, just follow the leader – Hommel America.

From our low-cost, hand-held T-500 roughness tester to our versatile T-1000, to our cutting edge T-8000 surface analysis system, we make instruments that are as comfortable on the shop floor as they are in the laboratory. We can tailor systems to meet your specific applications – including custom fixturing that allows operators to take and record precise readings quickly and easily.

Plus, you can link Hommel systems to additional equipment or computer networks – including your SPS system. And every Hommel system is backed by the best package of pre- and post-sales service in the industry.

Call us at (860) 827-8500. Or write Hommel America, Inc.

E-mail: info@micro.honeywell.com

Sensors

Improve production efficiency and product performance with these highly reliable solid state sensors:

- Airflow sensors
- Arrays/displays – output only
- Color recognition sensors
- Current sensors
- Fiber-optic products
- Hall-Effect position sensors
- Humidity sensors
- Infrared sensors
- Liquid-level sensors
- Optoelectric sensors
- Photoelectric sensors
- Pressure sensors
- Proximity sensors
- Safety sensors
- Temperature sensors
- Ultrasonic sensors

Switches

The most complete line of industry-proven electromechanical switches:

- Standard-size, miniature and sub-miniature snap-action switches
- Heavy-duty limit switches
- Severe-environment limit switches
- Compact and modular-enclosed switches
- Explosion-proof switches
- Safety switches

Industrial Safety Products

Honeywell is the worldwide leader in advanced switching and sensing technology—especially in the area of industrial machine safety. We offer both electronic and electromechanical safety components for safety applications in all categories of risk. Customers can count on our diverse product line to meet all of their machine safety applications.

Authorized Distributors Located Nationwide

For fast, off-the-shelf product availability and application assistance, contact a Honeywell Sensing and Control Authorized Distributor. To find an Authorized Distributor near you, contact your closest branch sales office or call 1-800-537-6945 (international 1-815-235-6847).

AMERICA'S PREFERRED CHOICE OF QUALITY INDUSTRIAL CLEANING SYSTEMS

For over 25 years, Hotsy has been the leader in the design and manufacturing of modern, hot- and cold-water pressure washers, biodegradable detergents, high-pressure pumps and accessories. As the largest pressure washer manufacturer in North America, with over 130 models to choose from, Hotsy has become the preferred choice among thousands of businesses and industries throughout the world.

The Hotsy Corporation also manufactures over 30 models of state-of-the-art, aqueous-based automatic parts washers designed to eliminate the use of solvents and provide a more cost effective and labor efficient means of cleaning parts. Among other specialty cleaning equipment offered by Hotsy is the RC3000 recycle system and oily-water separator designed to effectively treat wash water. Now, more than ever, Hotsy remains on the fast track of cleaning technology and customer commitment.

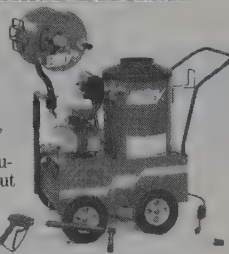

For a FREE demo, call 1-800-525-1976 and discover what Hotsy can do for you.

See our catalog in the Catalog File Selection or our color insert under "Steam Cleaners." Internet: www.thomasregister.com or www.hotsy.com

MORE HOLES, MORE OFTEN, IN MORE PLACES, WITH MORE PRODUCTS THAN ANYONE ELSE.

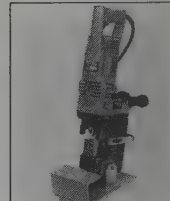

Rotabroach® Portable Magnetic Drills 10 models let you match power and sizes to meet your specific holemaking needs.

Rotabroach® Industrial Annular Cutters let you solve the tough holemaking

problems easily, accurately and productively. Choose from 1030 standard sizes from 3/4" thru 4" diameters up to 6" D.O.C.

Punch-Pro™ Electrohydraulic Hole Punchers 5 models with single body design easily punch round, oblong, or square holes in materials up to 1/2" thick.

Hougen Sheet Metal hole cutters are precision ground tools that cut thousands of clean accurate, virtually burr-free holes 3 times faster than hole saws.

Introducing Kind of

ELECTRICAL PRODUCTS

BRYANT.

Bryant has long been a very strong, high-quality industrial wiring device brand for industrial construction, MRO and commercial construction markets. Bryant's catalog numbers include everything from switches and receptacles to lighting controls. For details, go to www.hubbell-bryant.com.

KILLARK.

Killark's hostile and hazardous location products have a strong industrial/OEM content. And the brand is moving from an aluminum niche supplier to a broad-line brand including a complete line of iron fittings and unique pin and sleeve products. Killark-Stahl is a leader in IEC technology. For details, go to www.hubbell-killark.com.

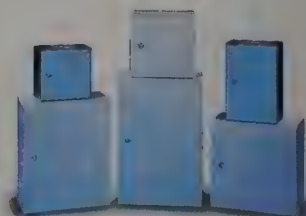

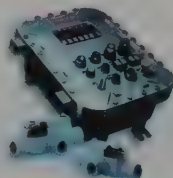

RACO.

When the industry thinks boxes, it thinks the number one supplier: RACO. The leading manufacturer of steel electrical boxes and covers, RACO also offers a complete line of nonmetallic boxes and covers, metallic and nonmetallic electrical fittings and covers. For details, go to www.hubbell-raco.com.

WIEGMANN.

There are few full-line suppliers of enclosures with NEMA and IEC ratings, metallic and non-metallic products, specials and standards. One of them is Wiegmann, where major investments are driving quality, cost reduction and availability. For details, go to www.hubbell-wiegmann.com.

a New Partner

Hubbell Electrical Products
brings together well-known
brands **Bryant, Killark, Raco,**
Wiegmann, Anderson C&I and
Bell under one easy-to-access
umbrella. So from one distributor,
you can get superb electrical
products to go across a broad
spectrum of applications.

ANDERSON C&I™

If you're connecting power, in one way or another you're working with Anderson products: a full line of electrical connectors and associated hardware, from the unique Versa Crimp Dieless tool and connector system with a full line of mechanical and compression connectors, as well as a growing line of wire management products. For details, go to www.hubbell-anderson.com.

BELL

When it rains and there is a receptacle out in it, the Bell trademark is there. The well-known weatherproof line includes thousands of boxes, covers, combination devices, lampholders and lever switches. For details, go to www.hubbell-bell.com.

ELECTRICAL PRODUCTS

A New Kind of Partner

J.M. Huber Corporation

ENGINEERED MATERIALS

**A Tradition of Innovation
Unsurpassed Research & Development
Extraordinary Response to Customer Needs**

HUBER ENGINEERED MATERIALS PROVIDES
ALUMINA TRIHYDRATE, BARIUM SULFATE,
CALCIUM CARBONATE, KAOLIN CLAY, MAGNESIUM
HYDROXIDE, SILICAS, AND SILICATES FOR THE
PAINT & COATINGS, PAPER, RUBBER
AND POLYMER INDUSTRIES

The Design Engineer's Source for Precision Deep Drawn Enclosures, High Speed Stampings and Assemblies Since 1940

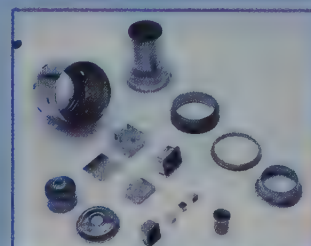

Specialized Business Units Utilizing Team Concepts to Reduce Lead Time and Piece Part Cost

HUDSON CUSTOM PRODUCTS

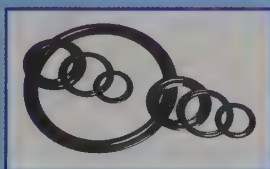

Extensive Tooling Library Capable of Producing over 15,000 Items

HUDSON AUTOMOTIVE PRODUCTS

Broad Range of Materials Stamped, Specializing in Stainless Steel

HUDSON PRECISION DIAPHRAGMS

Highest Quality Insured by Statistical Process Control

HUDSON MEDICAL PRODUCTS

Medical Grade Titanium and 300 Series Stainless Steel Implantable Cases

- Design Assistance (In-House or On-Site)
- Working in Any Standard or Exotic Metals
- Development & Design of Both Process & Tooling
- Huge Tooling Library Expedites Orders and Reduces Cost
- Value Added Capabilities:
 - Brazing
 - Annealing
 - Finishes
 - Deburring
 - Welding
 - Modifications
 - Many More...
- Close Tolerances to $\pm 0.0005"$
- State of the Art CAD / CAM Capabilities
- Prototype Capability
- Just-In-Time Delivery Capabilities

HURST MFG., DIV. OF EMERSON ELECTRIC CO.—Continued

(A Emerson Electric Co.)
(Sls. & Mktg.) W. Sievern

hurst MFG.

Hurst Offers a Wide Variety of Motors to fit YOUR Special Needs:

- Brushless
- Stepper
- AC Synchronous
- Servo
- Stepping Motor Controls
- Switched Reluctance Motors
- State-of-the-Art Design Techniques
- CAD Systems with Pro/ENGINEER Software
- Wire EDM Capabilities
- Design to Completion - On Site
- Ultra-Modern CNC Manufacturing Equipment
- ISO 9001

By joining the Emerson family of motor companies, Hurst has gained access to the Unique Motor Technology Center.

HYD

A World Leader In Band Saw Technology!

S-Series & M-Series

Scissors type saws with a swivel head, capable of mitre cutting. Available in Manual, Semi-Automatic or Fully Automatic versions.

H-Series

Horizontal, guillotine style bandsaws designed for heavy duty applications. Capacities from 10" to 80". Available in Semi-Automatic or Fully Automatic versions.

V-Series

Vertical bandsaws capable of mitering 45 degrees both left and right. Available in Manual, Semi-Automatic or Fully Automatic.

HYDRA-LOCK

Originators and developers of hydraulic chucking

HYDRA-LOCK CORPORATION, 25000-A Joy Blvd., Mount Clemens, MI 48043 (1M+)..... 800-634-6973
(FAX: 810-783-7578;
http://www.thomasregister.com/hydra-lock;
Or Call: 810-783-5007)
(Designers/Mfrs. Of Precision Hydraulic Expanding Arbors/Chucks For Grinding, Turning/Gaging, Balancing, Drilling, Reaming, Honing, Milling & Boring; Tool Holders For Gun Drilling, Boring & Reaming, Step Drills; Precision Balanced Tool Holders For Machining Speeds Up To 40,000 RPM; & CNC Machines; Precision Gages. Zero Deflection Jacks For Precision Work Supports. Arbors/Chucks For Holding Out-Of-Round Parts In Distortion Free State While Grinding/Turning/Boring, Or Gaging; Custom Rotary Bushings. Fixtures For Missile Systems. Hydra-Lock Quick Change System (Schnell-Meister) For Special Tool & Fixture Change-Over In Seconds. Complete CAD/CAM Capabilities)
(P.) E.R. Andre; (Chf. Engr.) R. Dietz; (V.P.) R. Andre; (Mfg. Mgr.) R. Laube; (S., T.) W.M. Andre

PRECISION DRAWN ALUMINUM TUBING CUSTOMIZED ALUMINUM EXTRUSIONS

**TWO BASIC PRODUCTS—
THOUSANDS OF APPLICATIONS**
Our two main products, Precision Drawn Aluminum Tubing and Customized High-Tech Extrusions both start out as precision aluminum extrusions. From there, the transformations, fabrications and uses are as varied as aluminum is versatile.

- Excellent Control of Raw Material
- Exacting Manufacturing Standards
- On-Time Delivery
- Thousands Of Applications
- Unique Cold-Drawing Process
- Coil or Cut to Length
- 3003, 6063, 6061 Alloys, Others Available

▲ SEE OUR CATALOG IN CATALOG FILE SECTION

Water Filtration & Purification Equipment

Design, Manufacture, Installation & Service

Point-of-Use Systems

Consistent Water Purity
Designed for Flexibility
Guaranteed Quality
Highest Quality Materials

Water Analyzers

For Clinical Applications
Portable
Completely Self-Contained
Meets CAP, ASTM, NCCLS Type 1

Reverse Osmosis

Economical Pretreatment
Varied Capacities & Flow Rates
Various Membrane Selection
Self-Contained
Pre-wired & Pre-plumbed
UL Listed

Pre-Treatment

Multi-media Turbidity Filters
Water Softeners
Carbon Filtration
Cartridge Filtration
Bag Filtration

Specialists in Water Purification Systems
For Over 30 Years • 24 Hour/365 Service

IMI Cash Valve Inc.
2400 7th Avenue SW
Cullman, AL 35055

Manufacturer of high-quality, direct-acting, self-contained valves for process industries.

- Pressure Reducing and Regulating Valves
- Back Pressure Valves
- Cryogenic Valves and Controls
- ASME Relief Valves
- Hydronic Valves and Controls
- Vacuum Valves
- Temperature Regulators
- Two Position Control Valve
- Backflow Preventors

**AEROSPACE - MILITARY AIRCRAFT - COMMERCIAL AIRCRAFT
MILITARY GROUND - TELECOMMUNICATIONS**

FANS · MOTORS · SOLENOIDS SOLENOID VALVES

A History Of SERVICE & INNOVATION...

For over thirty-five years IMC has designed & manufactured custom products for very critical applications. IMC's dedicated research, development, engineering, manufacturing & quality assurance personnel are focused on delivering products on time and conforming to ALL customer requirements. Our integrated & experienced team enables us to offer a wide range of high performance, cost-effective product designs.

DESIGNING & ENGINEERING

Virtually every product IMC makes is custom-designed for specific applications. Utilizing the latest CAD systems our highly specialized engineers can assist in evaluating & implementing individualized solutions for specific customer's needs.

- **Fuel Valves**
- **Hydraulic Valves**
- **Pneumatic Valves**
- **Check & Relief Valves**
- **Solenoids**
- **Fans**
- **Motors**

MIL-STD-810D - RTCA DO-160A Designed for vibration, shock, sand & dust, salt, fog, fungus, explosive atmospheres and immersion.

A Leading Designer & Manufacturer Of High Performance Motors & Air-Moving Equipment For Military & Commercial Aircraft As Well As Transportation, Telecommunications & Industrial Applications.

IP AUTOMATION, INC.

Established in 1988

IP Automation is an engineering company that designs automated and robotic production equipment. IP Automation has successfully developed innovative solutions for the production of everything from hand tools to aerospace equipment. We have over 25 years combined experience in engineering and design, robotics and electrical-mechanical automation. IP Automation has the knowledge and experience to develop creative solutions for the implementation of design goals.

IP Automation is committed to quality products and customer satisfaction.

ISOFOAM®

Polyurethane Liquid Foam & Coating Systems

Virtually Unlimited Applications...

Custom Made To Each Application

SPRAY

Foam & Coating Systems

- Construction: Roof, Wall, & Foundation Insulation
- Industrial: Storage Tank & Pipe Insulation
- Marine Applications: Boats, Buys, Spas

FROTH

Rigid Chemical Systems

- Refrigeration: Insulation Panels, Rail Cars, Trailers, Cabinets
- Flotation: Barges, Boats

POUR

Rigid Chemical Systems

- Insulated Trays, Bottles, Boxes, Doors
- Decorative Moldings
- Pipe Insulation
- Cavity Filling
- Taxidermy

FLEXIBLE

Chemical Systems

- Seating: Office, Stadium, Aircraft
- Packaging
- Automotive Trim: Arm Rests, Head Rests, Sun Visors
- Toys & Recreational Items

FOR SPECIALTY APPLICATIONS:

- Custom Designed To Meet Customer's Specifications
- Quality Control (Batch to Batch) Zero Defects
- Research & Development Department
- Technical Field Support
- On-Time Delivery
- Binders for Granulated Cork & Rubber
- Specialty Prepolymers
- FUTURA® Polyurethanes and Polyureas
- Polyurethane Dispensing Equipment

Mfr. Of Polyurethane Liquid Foam Systems. Custom Designed By Our Research & Development Departments For Each Application. Zero Defect Quality Control. Product Applications Include: Refrigeration Walk In Coolers, Foam-In-Place Marine Flotation, Pour-In-Place, Transportation-Insulation, Rigid Furniture Molding, Construction Spray For Roofing & Controlled Atmosphere Buildings.

WORLD CLASS METALWORKING SOLUTIONS AT COMPETITIVE PRICES

ITA provides access to world class metalworking and design solutions at competitive prices. Our solutions are engineered to meet specific application needs and are supported with unparalleled service.

• METAL CUTTING SOLUTIONS •

CNC Turning Centers • Milling & Boring Machines • End Working Machines
Disc Grinders • Centerless Grinders • Cylindrical Grinders

• METAL FABRICATING SOLUTIONS •

Spinning Lathes • Decoilers & Straighteners • Roll Benders

• MACHINE TOOL ACCESSORY SOLUTIONS •

Grinding Wheel Balancers • Vibratory Bowl Feeders
Industrial Filtration Systems • Work Holding & Clamping

• POWER TRANSMISSION SOLUTIONS •

Pulleys & Belts • Linear Motion Technology
Pneumatic Valves & Regulators • Robotic Grippers & Rotary Actuators

532 Route 15 • Sparta, NJ 07871 • **PH:** 973 579-3400 • **FAX:** 973 579-3222

Fluid Handling Products

Bell & Gossett

Centrifugal Pumps

Ratings to 20,000 GPM, heads to 850 feet, working pressures to 300 psig, 1/25 to 1,000 H.P., operating temperatures to 300°F.

- ◆ End Suction Single-Stage Pumps
- ◆ Double-Suction Single-Stage Pumps
- ◆ Closed-Coupled Pumps
- ◆ In-Line Pumps
- ◆ Compact In-Line Pumps
- ◆ Vertical & Horizontal Split Case Pumps
- ◆ Multi-stage High Head, Low Flow Pumps
- ◆ Suspend Wet Pit Pumps for Pits 2 to 20 feet deep
- ◆ Quantek fabricated stainless steel pumps
- ◆ Vertical Turbine Pumps

Heat Transfer Equipment

Many variations of material, pressure and temperature ratings, custom design available.

- ◆ Straight Tube Exchangers
- ◆ U-Tube Exchangers
- ◆ Plate Heat Exchangers
- ◆ Braze Plate Heat Exchangers
- ◆ Small Tube Exchangers
- ◆ Double Wall Tube Exchangers
- ◆ Gas Coolers
- ◆ Tank Suction Heaters
- ◆ Aftercoolers and Heat Transfer Packages

Hydronic Specialties

- ◆ Air Control Products
- ◆ Circulators
- ◆ Valves and Fittings for Hydronics Environmental and Process Systems

Hoffman Pump

- ◆ Condensate Units
- ◆ Centrifugal Condensate & Boiler Feed Pumps
- ◆ Boiler Feed Units
- ◆ Vacuum Heating Pumps

Domestic Pump

Condensate Transfer Equipment

- ◆ Condensate Units, Single or Duplex
- ◆ Pumps hot condensate up to 338°F

Boiler Feed Units

- ◆ Boiler Feed Pumps
- ◆ Combination Boiler Feed & Vacuum Pumps

Vacuum Units

- ◆ Vacuum Heating Pumps
- ◆ Clinical & Industrial Vacuum Pumps

Centrifugal Pumps

- ◆ 250°F Mechanical Seals
- ◆ 2" NPSH Centrifugal Pumps

Packaged Pump Systems

- ◆ Variable Speed Pump Systems
- ◆ Packaged Pressure Booster Pump Systems
- ◆ Heat Transfer Packaged Systems

McDonnell & Miller

Boiler Controls

- ◆ Low Water Cutoffs and Pumps Controllers
- ◆ Boiler Feed Units
- ◆ Combination Cutoff-Feeder Units
- ◆ Float Switches

Liquid Level Controls

- ◆ Conductance Actuated
- ◆ Vertical Float-Operated
- ◆ Displacer
- ◆ Modulating Pneumatic
- ◆ Fire Protection

Flow Switches

- ◆ Water
- ◆ Air
- ◆ Process Liquids

TOTAL CAPABILITY

Our knowledgeable Representatives are prepared to give you the assistance you need to specify and apply the most efficient locally stocked products for your applications. Our distribution network covers the nation with representative organizations near you.

For your nearest Fluid Handling sales office, call toll free.

IDenticard®

Now you're secure.

We are a privately held firm, established in 1970, that develops, produces and distributes security identification and electronic access control systems for use by more than 20,000 commercial and institutional organizations worldwide. IDenticard maintains direct sales and technical assistance offices in 29 cities throughout the U.S. and in Canada. We also offer selected products and services through our global network of authorized business and marketing partners.

Approximately 165 employees at our 52,000 sq. ft. corporate center in Lancaster, PA are engaged in the development, distribution and marketing of software and hardware used in our digital imaging and security access systems. Local installation services are offered through authorized partners who have completed IDenticard training and certification.

We also produce more than 300 types of multipurpose identification cards and badges incorporating state-of-the-art technologies. Although some IDenticard badges are used purely for identification, the great majority are integrated into data collection systems (such as inventory control, time & attendance, job costing, etc.) and/or access control systems. IDenticard maintains cooperative relationships with most of the world's leading data collection and access control system manufacturers to assure continued system compatibility and reliability. The company was the first to introduce an interactive link between a security access control system and an electronic imaging system.

IDenticard customers include a majority of the Fortune 500; leading colleges and universities; major medical centers; and state, local and central governments both in the U.S. and overseas. Although most card orders range from several hundred to 3,000 or 4,000 cards per customer, orders in one project called for 48 million cards, while the firm completed for one international customer, on time and on budget.

IKKA TECHNOLOGY, INC.
*Injection Molded Parts
 For a Variety of Industries*

► **Consumer Goods** ► **Electronics**
 ► **Data Processing** ► **Automotive**
 ► **Communications** ► **Medical**

We Also Provide:
Custom Tooling

Injection Molded Products

Custom Assembly Equipment

Our advanced technology allows us to provide a variety of parts that meet your more stringent requirements. We can take projects from concept to design through production, secondary operations and packaging.

**INNOVATION
DIVERSITY
EXCELLENCE**

Hundreds of products in this year's Thomas Register editions are manufactured by IDEX operating units. Look for our proprietary, top-quality products in Thomas categories like these:

Air Motors

- Oil-less and lubricated variable speed air motors and gearmotors — Gast

Clamps and Bands

- Hose clamps — Band-It
- Industrial clamps and banding devices — Band-It
- Signfix® sign mounting systems — Band-It

Rescue Equipment

- Hurst Jaws of Life - Hale

Blowers

- Regenerative blowers for high volume or compressed air applications — Gast

Compressors

- Fractional to medium horsepower compressors for pneumatic applications — Gast
- Small HP compressors for volatile liquids and gases — Corken

Lubricating Systems

- Centralized lubrication systems — Lubriquip
- Force-feed lubricators — Lubriquip
- Truck chassis lubrication systems — Lubriquip

Dispensing, Mixing and Metering Equipment

- Knight™ dispensing equipment, pumps and controls for the commercial laundry and dishwashing markets — Pulsafeeder
- Manual and automatic dispensing equipment — Fluid Management, Fast
- Paint mixers and shakers — Fluid Management, Fast
- Precision formulation equipment for inks, dyes and colorants — Fluid Management, Fast
- Stirring lids and mixing racks — Fast

Pumps

- Air operated double-diaphragm pumps — Warren Rupp
- External gear pumps — Viking
- Fire-fighting pumps — Hale
- Internal gear pumps — Viking
- Magnetic drive gear and centrifugal pumps — Micropump
- Metering pumps and electronic controls — Pulsafeeder
- Pumps and valves for volatile liquids and gases — Corken
- Rotary lobe pumps — Viking
- Rotary vane, diaphragm, linear, rocking piston and piston vacuum pumps — Gast
- Vane-type pumps for truck-mounted applications — Corken

IDEX Business Profile

	CORKEN	GAST MANUFACTURING	MICROPUMP
<i>Product offering</i>	Positive displacement rotary vane pumps, single and multistage regenerative turbine pumps, and small horsepower reciprocating piston compressors.	Vacuum pumps, air motors, vacuum generators, regenerative blowers and fractional horsepower compressors.	Small, precision-engineered, magnetically and electromagnetically driven rotary gear, piston and centrifugal pumps.
<i>Brand names</i>	Corken, Coro-Flo, Coro-Vane, Coro-Vac, Sabre	Gast, Regenair, Smart-Air, Roc-R	Micropump, Delta, Integral Series
<i>Markets served</i>	Liquefied petroleum gas (LPG), oil and gas, petrochemical, pulp and paper, transportation, marine, food processing and general industrial.	Medical equipment, computers and electronics, printing machinery, paint mixing machinery, packaging machinery, graphic arts and industrial manufacturing.	Printing machinery, medical equipment, chemical processing, pharmaceutical, refining, laboratory, electronics, pulp and paper, water treatment and textiles.
<i>Product applications</i>	Products used for transfer and recovery of LPG, alternative fuels and other gases and liquids.	Air motors for industrial equipment applications, and vacuum pumps and fractional horsepower compressors for specialty pneumatic applications requiring a quiet, clean source of moderate vacuum or pressure.	Pumps and fluid management systems for low-flow abrasive and corrosive applications such as inks, dyes, solvents, chemicals, petrochemicals, acids and chlorides.
<i>Competitive strengths</i>	Market leader for pumps and compressors used in LPG distribution facilities with an estimated 50% U.S. market share.	A leading manufacturer of air-moving products with an estimated one-third U.S. market share in air motors, low and medium range vacuum pumps, vacuum generators, regenerative blowers and fractional horsepower compressors.	Market and technology leader in corrosion-resistant, magnetically and electromagnetically driven, miniature pump technology with an estimated 40% U.S. market share.
<i>International sales</i>	45% of sales outside the U.S.	20% of sales outside the U.S.	50% of sales outside the U.S.
<i>Examples of recently introduced products</i>	New Coro-Vac vacuum pump, designed in cooperation with Gast Manufacturing, for purging air from cylinders and tanks prior to filling with LP gas. New high pressure, two-stage compressor for gas and liquid transfer and recovery.	New line of rocking piston vacuum pumps and air compressors for medical and industrial applications. Extended series of miniature diaphragm vacuum pumps for environmental applications.	New series of pumps built from injection molded stainless steel, new dual-pumps sharing a common drive, and a new brushless DC motor used throughout several pump series.
<i>Manufacturing locations</i>	Oklahoma City, Oklahoma	Benton Harbor, Michigan Bridgman, Michigan High Wycombe, England Swansea, Wales	Vancouver, Washington St. Neots, England

IDEX Business Profile

PULSAFEEDER	VIKING PUMP	WARREN RUPP	FAST
Metering pumps, special purpose rotary pumps, peristaltic pumps, electronic controls and dispensing equipment.	Positive displacement rotary gear, lobe and metering pumps and related electronic controls.	Double-diaphragm pumps, both air-operated and motor-driven, and accessories.	Precision engineered equipment for dispensing and mixing paints, colorants and dyes. Stirring lids, mixing racks and machines for automotive and industrial refinishing applications.
Pulsafeeder, Knight, PULSAR, PULSAtron, PULSATrol, Chem-Tech, Eco, Isochem, Mec-O-Matic	Viking, Vican, Duralobe, Viking Mag Drive, Viking Flow Manager, Vi-Corr, Johnson, Classic, On-Line, SQ	Warren Rupp, SandPIPER, Marathon, PoweRupp, RuppTech, Blagdon	Fast, Leonardo, Top Mix, Pro Mix, Michaelangelo, Unicover, Eurocombi
Water and wastewater treatment, power generation, pulp and paper, chemical and hydrocarbon processing, swimming pool, industrial and commercial laundry and dishwashing.	Chemical processing, petroleum, food processing, pulp and paper, pharmaceutical, biotechnology, paints, plastics, inks and power generation.	Chemical, paint, food processing, electronics, construction, utilities, mining and industrial maintenance.	Paint and ink manufacturers, retail and commercial paint stores.
Pumps, controls and dispensing equipment for introducing precise amounts of fluids into processes to manage water quality and chemical composition.	Pumps for transferring and metering thin and viscous liquids, including chemicals, foods, petroleum products, paints, inks, coatings, glues and asphalt.	Pumps for abrasive and semisolid materials as well as for applications where product degradation is a concern or where electricity is not available or should not be used.	Stirring lids, mixing racks and machines for automotive and industrial refinishing applications. Color-formulation equipment, including dispensers and mixers that precisely meter and mix liquids and pastes for numerous markets.
A leading manufacturer of metering pumps, controls and dispensing equipment used in water treatment, process applications and warewash institutional applications. Estimated 40% U.S. market share.	Largest internal gear pump producer with an estimated 35% share of U.S. rotary gear pump market. Also a producer of external gear and rotary lobe pumps.	A leading double-diaphragm pump producer offering products in several materials including composites, stainless steel and cast iron. Estimated one-quarter U.S. market share.	A leading U.S. and European manufacturer of dispensing and mixing equipment, stirring lids and mixing racks with an estimated 33% market share in Europe.
30% of sales outside the U.S.	30% of sales outside the U.S.	50% of sales outside the U.S.	90% sales outside the U.S.
An advanced cooling tower controller offering simplified user interface, and upgraded leak detection technology used throughout the metering pump range.	A new line of industrial lobe pumps for high pressure/non-shearing applications, and a sanitary lobe pump for loading/unloading food-grade liquids from transport trucks.	Stroke counter batch control, expanded line of stainless steel hygienic pumps, and new plastic pump models.	Top mix gyroscopic mini-mixer with electronic mixing cycle controls. Leonardo compact automatic dispenser with PLC electronic controls.
Rochester, New York Lake Forest, California Punta Gorda, Florida Covington, Georgia Enschede, The Netherlands	Cedar Falls, Iowa Windsor, Ontario, Canada Eastbourne, England Shannon, Ireland	Mansfield, Ohio Newcastle, England	Cinisello Balsamo (Milan), Italy Princeton, NJ

COMPANY PROFILES
(Asset Rating Explanation, see Inside Front Cover)

FLUID MANAGEMENT	LUBRIQUIP	BAND-IT	HALE PRODUCTS
Precision-engineered equipment for dispensing, metering and mixing paints, coatings, colorants, inks, dyes, and other liquids and pastes.	Centralized oil and grease lubrication systems, force-feed lubricators, metering devices, related electronic controls and accessories.	Stainless steel bands, buckles, preformed clamps, cable ties, installation tools and modular sign-mounting systems.	Centralized oil and grease lubrication systems, force-feed lubricators, metering devices, related electronic controls and accessories.
Fluid Management, Harbil, Miller, Blendorama, Tintmaster, Accutinter, Eurotinter, ColorPro, Prisma, EZ Load, GyroMixer	Trabon, Manzel, Kipp, OPCO, Grease Jockey, TrackMaster, Spindl-Gard, Injecto-Flo, Mill-Gard	Band-It, Signfix, Tespa, Self-Lok, Ultra-Lok, Band-It Jr, Ball-Lok, Band-Lok, Infocurve	Hale, Godiva, LUKAS, Hurst Jaws of Life, FoamMaster, CAFSMaster, Century, Green Cross, Hurst Entry Systems, Typhoon, Qflo, Qmax
Retail and commercial paint stores, hardware stores, home centers, department stores, printers, and paint and ink manufacturers.	Machine tools, transfer machines, conveyors, packaging machinery, transportation equipment, construction machinery, and food processing and paper machinery.	Transportation equipment, oil and gas, industrial maintenance, electronics, electrical, communications, aerospace, traffic and commercial signs.	Public and private fire and rescue applications.
Fluid management systems for precise blending of base paint, tints and colorants, and inks and dyes in a broad range of industries from retail point-of-sale equipment to manufacturing systems.	Lubrication devices to prolong equipment life, reduce maintenance costs and increase productivity.	Clamps and bands for securing hose fittings, signs, signals, pipes, poles, electrical lines and numerous other "hold-together" applications for industrial and commercial use.	Pumps for water or foam to extinguish fires, and rescue equipment for extricating accident victims.
Industry innovator and worldwide market leader in automatic and manually operated dispensing, metering and mixing equipment for the coatings market. Estimated 50% worldwide market share.	Market leader in centralized lubrication systems serving a broad range of industries. Estimated one-third U.S. market share.	World's leading producer of high-quality stainless steel bands, buckles and clamping systems with an estimated 50% U.S. market share.	World's leading manufacturer of truck-mounted fire pumps and rescue systems with an estimated worldwide market share in excess of 50%.
55% of sales outside the U.S.	20% of sales outside the U.S.	60% of sales outside the U.S.	50% of sales outside the U.S.
New high speed EZ Load and GyroMixer line of paint mixing equipment. New mini-gravimetric dispenser for printing applications, and industrial software for management of small to medium batch production operations.	Environmentally friendly self-contained Mill-Gard lubrication system for the primary metals and paper industries, and state-of-the-art Injecto-Flo piston distribution systems for machine tools.	New high volume industrial application tools, Self-Lok and Ball-Lok stainless steel cable ties, Band-Lok general purpose clamps, and Infocurve curved sign systems.	Newly designed line of compact, efficient Hale midship "muscle pumps," new "world pumps" in Europe, new compact compressed air foam systems for portable firefighting applications, and LUKAS super silent rescue tool power packs.

SOLUTIONS IN SURFACE TECHNOLOGY

ELECTROLESS NICKEL PLATING

BONDED DRY FILM LUBRICANTS

Teflon® Coatings - High Temperature Ceramic Coatings - Military Specification Coatings

PHOSPHATE COATING

Zinc - Iron - Manganese - Micro & Macro Crystalline - Grain Refined

PASSIVATION OF STAINLESS STEEL

Surface Treatment of 300 Series - Surface Treatment of 400 Series - Surface Treatment of P.H. SS

NONDESTRUCTIVE TESTING

NADCAP APPROVED

Penetrant Inspection (Fluorescent & Visible Dye) - Magnetic Particle Inspection

ADDITIONAL SERVICES

ChemFilm (Udine®/Indice®) - Military Primers & Paints - Chemical and Corrosion Resistant Paints - Mechanical Cleaning - Post Testing

Of Custom Vacuum & Pressure Thermoformed Plastic Products. Capable Of Forming All Types Of Thin & Heavy Gauge Thermoplastics On High Speed In-Line Machines. Specializing In Clamshells, Custom Clamshells, Point Of Purchase Displays, Blisters, Clamshells, Covers, Housings, Panels, & Custom Parts. Services Include: Engineering, With The Use Of CAD/CAM/CAE Software, Prototype Development, Tooling, Die Cutting, Mold Making, Shearing, Stamping, Punching, CNC Machining, & Routing, RF & Ultrasonic Welding. ISO 9001 Compliance. JIT Delivery) (Pres.) Curtis Kirkham; (Controller) Tanya Sargent	888-276-9167

In-Touch Products, Inc.

UTAH'S LEADING CUSTOM THERMOFORMER & PACKAGING SPECIALIST

In-Touch Products is a custom manufacturer, providing services for the design of thermoformed plastics since 1979. Whether it's your completed product or the packaging for it, In-Touch can meet your needs.

IN-TOUCH PRODUCTS' CAPABILITIES INCLUDE:

- Product & Package Design Services
 - Computer Aided Design & Manufacturing
 - Prototype Development
- Thermoforming Operations
 - High Speed In-Line Equipment
 - Custom Clamshells, Packaging, Blisters, Trays, Housings, Cases
- Cold Forming Operations
 - CNC Routing, RF Welding, Ultrasonic Welding
- Machine Shop Services
 - Custom Machining, Production
 - Thermoforming & Injection Mold Tooling

Through the use of an ISO 9000 Quality Management System the best possible product is achieved. By using process inspections, production maintains a high degree of quality.

IND

Your Source...

for Electric Heaters and Controls

Founded in 1929, INDEECO is still family owned and operated. It has grown from an "inventor's basement" to an *integrated designer and manufacturer of complex electric heating and control systems*.

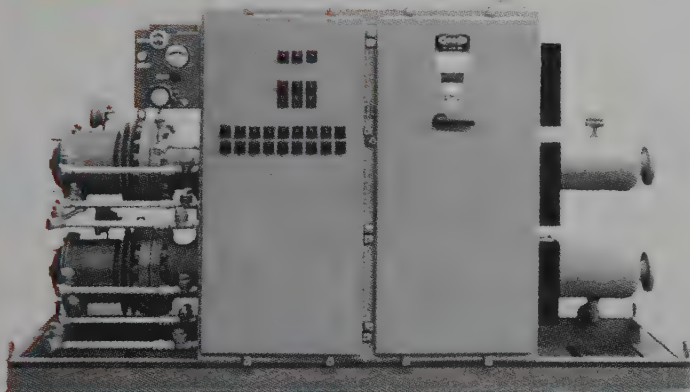

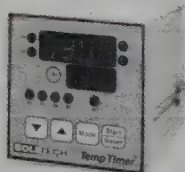

OUR QA PROGRAM COMPLIES WITH TOUGH MILITARY STANDARDS (MIL-I-45208A), AND OUR HEATERS CAN BE MANUFACTURED TO MANY SPECIFICATIONS, INCLUDING-CSA, UL, FM, NEMA, IEEC, CENELEC, MIL SPEC AND ASME.

Our four plants total 190,000 square feet. Our staff of 300 includes more than 30 engineers and technicians, plus ASME-certified welders, quality assurance personnel, skilled electronic and electrical assemblers and panelboard fabricators. We manufacture tubular elements over thirty feet in length, and stock key components for fast turnaround on custom-designed systems. Our sheet metal shop has the most advanced numerically controlled equipment for fabricating electrical panelboards. Since 1972, our

INDEECO CONTROLS Division has *engineered and manufactured industrial grade solid-state controls*. Our mainframe computer keeps proprietary programs on line for quick, accurate custom designing and order processing. Plus the on-site day

care center for children and grandchildren of our employees is just one of the commitments that INDEECO has made to its people. They, in turn, are dedicated to giving you the capable, reliable service you deserve.

WORLDWIDE SUPPLIERS OF INDUCTION HEATING EQUIPMENT

Inductoheat is an international organization of 10 companies specializing in induction and direct electric resistance heating technology. We design and manufacture general purpose machines and integrated systems independently or jointly with other Inductoheat companies. This allows us to handle any size customer program as a single-source supplier while providing aftersale support on a local basis.

Industrial Noise Control, Inc.

Industry's Leading Manufacturer of
Noise Control Products and Custom
Systems for Industrial and Commercial
Facilities Offering a Complete Line of
Noise Control Products.

Flexible fire rated absorbers and barriers • Wall blankets • Ceiling mounted baffles • Curtains • Portable noise screens • Equipment & personnel enclosures • Shop offices • Partitions • HVAC silencers • Project management – from general planning and design through installation • Extensive experience providing noise control systems for original equipment manufacturers

® specialists in noise control products and services

WHY INDUSTRIAL SCIENTIFIC CORPORATION?

QUALITY ASSURANCE

ISO9001 Quality System Certified

CSA—Category Certified

Third Party Certifications—for intrinsic safety, susceptibility to electromagnetic and radio frequency interference, ingress protection and performance

GLOBAL PRESENCE

Offices in many countries throughout the world

Distribution network established worldwide

Established international accounts—references available

GUARANTEED FOR LIFE

Lifetime Warranty on all portable monitors

Service Guarantee on all factory repairs

One year warranty on all fixed-point systems and accessories

EASE OF USE AND SERVICEABILITY

One-button operation and calibration on many monitors

Microprocessor-controlled operation

Easy sensor replacement and calibration in the field

Local servicing available through authorized distributors

DURABILITY AND RELIABILITY

Durable stainless steel or high impact composite construction on portable monitors

NEMA 4X fiberglass and cast aluminum construction on fixed monitoring systems

Superior Radio Frequency Interference (RFI) shielding

Mean Time Between Failure (MTBF) statistics document exceptional reliability

FLEXIBLE PROGRAMS

On-site product demonstrations

Training courses available at corporate headquarters or customer's site

Total Cost of Ownership Programs (TCOP) available for instrument maintenance

On-site mobile service contracts available in some parts of the world

Short term and long term rental available

Leasing available

GUARANTEED
FOR LIFE.

To: All Present And Future Customers Of Industrial Servo Hydraulics, Inc.

In 1969, Industrial Servo Hydraulics, Inc. was formed to service hydraulic components, such as Hydraulic Pumps, Motors and Actuators, specializing in Electro-Hydraulic Servovalves - all manufacturers.

Our key personnel worked for Pegasus Laboratories, (now Schenck/Pegasus, a leading servovalve and system manufacturer) for over ten (10) years. Industrial Servo Hydraulics, Inc., has been involved in the manufacture, research and development of all makes of servovalves. We were the first independent servovalve repair organization and are still the only repair organization whose background in design and manufacturing gives us the ability to understand the specifications, testing and manufacturing of all makes of servovalves, pumps, motors and actuators. Because of our expertise, all the servovalve manufacturers will attest to our high quality service of their servovalves and related products.

INDUSTRIAL SERVO HYDRAULICS, INC.

- Authorized ISHI/Star Ltd. Master Distributor. Service Center High Quality. Lower Cost. Replacement or Exchange Servovalves.
- Authorized Atchley Controls. Distributor. Service Center.
- Authorized Schenck/Pegasus. Distributor. Service Center. Servo and Proportional Valves.
- Service Center for Moog Products.
- Service Center & Distributor for Parker/Hannifin.
- Service Center for Vickers Products.
- Authorized Westinghouse Service Servo Values/EHC Cylinders.
- Fatigue. Simulation Actuator Service MTS. Instron. Pegasus. Shore Western.
- Distributor for New Shore Western Fatigue. Simulation Actuators and Systems.
- Hydraulic Systems. Electronics. Engineering.
- Certified Minority Representation by RB Industries. Worthy of Your Trust and Confidence Authorized U.S. Navy Servovalve Service.

Quality Repair and Remanufacturing of all your Hydraulic Servovalves, Pumps, Motors, Actuators, etc. to the manufacturers' or your specifications.
Eliminate High Frequency of Repair and Down Time Cost, get long lasting, Quality Service. **Call us, or better yet come visit our facility and let us show you how hydraulic servovalves and components should be repaired.**

Since 1969 — Meeting the challenge of today's hydraulic requirements...worldwide

INDUTECH

CANADA LIMITED

The proven world leader in the manufacture of abrasion resistant steel piping systems.

Quality • Reliability • Service

NASPipe

- Induction hardened abrasion resistant steel pipe.
- Nominal I.D. hardness 600 BHN.
- Pipe, bends and tee's.

INDULAY

- Abrasion resistant chromium carbide overlay on pipe, bends and fittings.
- Flat plate of various sizes and thicknesses.

ASME B31.3
 CERTIFIED

INDUTECH CANADA LIMITED

For the nearest sales office call toll free—1-800-847-4041.

For information regarding specific products or services, contact the appropriate division listed below.

Markets:

All manufacturing; assembly and petrochemical; food and beverage process industries; highway and bridge construction; waterwell drilling and mining; general construction; electric utilities; natural-gas-powered vehicle refueling; abrasive blasting; commercial businesses; service aftermarkets

Products:

Air Drying Equipment: Aftercoolers, fluid cooling systems, refrigerated and desiccant dryers

Air System Components: Compressed air filters, regulators, lubricators, couplers and connectors

Blowers: Single-stage oil-free turbo compressors, air/gas and steam applications

Compressors: Air and gas

- Axial-flow: Fluid catalytic cracking, nitric acid plants, blast furnace, integral power recovery plants, refining process and chemical plant applications, expander turbine devices
- Centrifugal: Intercooled, packaged plants, integral gear Centac®, packages for plant/process air, single or multistage process, single and multistage, turbo, vacuum exhausters, contract compression, and blast furnace
- Compression services: Contract compression, operation and maintenance, field plant and industrial air and gas compression, pipeline testing, rental or rental/purchase
- Compressor rentals: Air and gas rentals, drilling services, portable air compressors
- Helical-rotor displacement: Air blowers, Axi®, vacuum pumps, jet engine starting, packaged plants, pneumatic conveying, portable (Spiro-Flo®)
- Oil-free air compressors
- Reciprocating compressors: Air and water cooled, dry vacuum, field gas booster, gas pipeline, high pressure, integral gas, nonlubricated, process air and gas, single and double acting, single and multi-stage, separable gas engine
- Rotary screw: Stationary electric driven, single and multi-stage
- Soot blowing
- X-Flo™: Single-stage turbo compressor

Air compressors control systems

Compressed air dryers

Coalescing type-air filters

Air and water-cooled heat exchangers

Reciprocating vacuum pumps

Water cooling equipment: Closed circuit cooling and pumping systems

Brand Names

CENTAC, INTELLISYS, SIERRA, SSR, X-FLO, T-30, LLE, XLE, ECOAIR, ULTRACOOLANT, XL740, T-30 SELECT, DRIOUT, SIMPLAIR

Manufacturing Locations

U.S. (4), Italy (2), U.K. (2), India (3), Australia, Singapore, South Africa
Partially owned companies: Shanghai Ingersoll-Rand Compressor Ltd. (China), Xuanhua Ingersoll-Rand Mining and Construction Machinery Ltd. (China), GHH-RAND Schraubenkompressoren GmbH & Co. KG (Germany)

Address

Air Compressor Group, 800-D Beaty Street, Davidson, NC 28036, 704-896-4000, Fax: 908-689-3095

For the nearest sales office call toll free—1-800-847-4041.

For information regarding specific products or services, contact the appropriate division listed below.

Employees: 8,000

Markets: Commercial buildings, (schools, hospitals, hotels, offices, factories, government facilities); new residential buildings (track-home builders, prefabricated housings, door assembly specialists); retail hardware centers (aftermarket remodeling, and DIY)

Products: **Doors:** Cold-rolled and galvanized steel doors and frames

Door closers: Both overhead and floor, some with electronic controls and with special features for people with disabilities

Door locks: From low cost residential to heavy-duty commercial and special applications for people with disabilities and security requirements

Exit devices: Panic and fire exit hardware: Electrical security products and systems and other auxiliary locking/control devices

Brand Names: Briton, DALCO, Dixie-Pacific, Dor-O-Matic, Falcon, Glynn-Johnson, Hartman Sanders, LCN, Legge, Legge-Pacific, Martin Roberts, Monarch, Mustad, Normbau, Randi, Schlage, Steelcraft, Von Duprin

Manufacturing Locations: U. S. (11), Canada, Mexico (2), New Zealand (2), Australia
Denmark, France, Germany, U. K. (5)

Headquarter Addresses: Locks, 1915 Jamboree Drive, Colorado Springs, Colorado 80920
719-264-5300

Exit devices, 2720 Tobey Drive, Indianapolis, Indiana 46219
317-897-9400

Closers, 121 West Railroad Avenue, Princeton, Illinois 61356
815-975-3311

Doors and frames, 9017 Blue Ash Road, Cincinnati, Ohio 45242
513-745-6400

Canada, 1076 Lakeshore Road East, Mississauga, Ontario, L5E 1E4, Canada

Markets: Automotive; agricultural and construction equipment; general industrial equipment; aircraft/defense; energy; aftermarket/replacement; metal and paper production; machine tools

Products: **Automotive machine parts:** Steering column shafts, intermediate shaft assemblies, engine camshafts

Bearings:

- Ball: Aerospace, angular contact, Conrad, housed units, maximum capacity radial, thrust, small unground radial, rod ends and thrust
- Needle roller: Aircraft, track rollers, drawn cup, thrust, caged assemblies, thin section
- Roller: Cylindrical, heavy-duty, journal, pillow blocks, radial, self-aligning spherical, single and multirow tapered, thrust
- Spherical Plain: radial, angular contact

Drawn cup roller clutches

Precision components

- Specially engineered products for automotive and other industries
- Small assemblies and subassemblies

Pins and shafts

- Standard and custom for automotive and general industries
- Fasteners, motor and gear shafts, rollers

Brand Names: TORRINGTON, FAFNIR, KILIAN, IRB

Manufacturing Locations:

U.S. (16), Canada (2), U.K. (2), China (2), Germany, Australia, Spain, and Brazil

Subsidiary: Kilian Manufacturing Corp. (Syracuse, New York)

Partially owned companies: NASTECH (steering columns-U.S.), NSK-Torrington Company Ltd. (bearings-Japan), Nadella (bearings-Belgium, France, Germany, Italy, United Kingdom), ICSA (bearings-Italy), NRB Bearings Ltd. (bearings-India), NRB-Torrington Ltd. (bearings-India), S. E. Setco Service Co. (spindle repair-U.S.), NASTECH Europe Ltd. (steering columns-Europe)

Markets: Highway and heavy construction; building construction; general construction; water well drilling; quarry and mining; municipalities; utilities; rental

Products: **Air system components:** Compressed air filters, regulators, lubricators, couplers and connectors

Air and gas compressors:

- Helical-rotor displacement: Air blowers, Axi®, vacuum pumps, jet engine starting, packaged plants, pneumatic conveying, portable (Spiro-Flo®)
- Portable air compressors: Screw-type (Spiro-Flo®) silenced (Whisperized®)

Asphalt Pavers: Asphalt pavers, road wideners, screeds and automatic control systems for road building

Construction & mining equipment: Portable air compressors, packaged air compressors, portable light towers, portable generators, vibratory compactors, static compactors, rough-terrain forklifts, rock drills, Crawlair® air and hydraulic, downhole, Jackdrill®, jacklegs, wheel, rail and crawler mountings, single and multiple booms, self-propelled drill rigs, downhole drills and bits, cluster drills, pole drills, ground engineering drills, rock stabilizers, paving breakers, jackhammers, mining equipment, jumbos, blasthole drills, waterwell drills, rotary drills, oil and gas rigs, rotary blasthole, water well and self-propelled drill rigs

Demolition tools

Split Set®: Rock stabilizers

Air sump pumps

Underground mining equipment

Brand Names: I-R ABG, BLAW-KNOX, I-R MONTABERT, RAND EQUIPMENT, INGERSOLL-RAND TOKYO RYUKI

Manufacturing Locations: U.S. (4), Germany, France, India, South Africa, Japan
Partially owned company: Xuanhua Ingersoll-Rand Mining and Construction Machinery Ltd (China)

Address: Construction & Mining Group, 1495 Valley Center Parkway, Bethlehem, PA 18017, 610-882-8800
Road Machinery, 312 Ingersoll Drive, Shippensburg, PA 17257, 717-532-9181

Markets: Automotive (OEM and aftermarket), appliance, aerospace, furniture, electronics, textile, sheet metal, printing, converting, food, beverage, pharmaceutical, marine, petrochemical, agriculture, and glass industries

Products:

Tool & Hoist:

- Air hoists: Chain or wire rope, hoist tractors, long lift, low headroom, standard spark resistant, travel air hose carriers, utility
- Air starters: Stationary and mobile diesel, gas engine and turbine
- Automotive and industrial power tools
- Air Saws
- Tampers
- Air Tools automotive and industrial, assembly tools, impact tools, finishing tools, construction tools, accessories
- Concrete vibrators
- Air motors: Vane and piston-type, turbine-type air starters
- Air sump pumps
- Air system components: Compressed air filters, regulators, lubricators, couplers and connectors
- Fastener tightening systems: Hand-held or complete stations

ARO fluid products:

- Pneumatic logic control systems, Pneumatic cylinders, Pneumatic valves
- Couplers and connectors
- Lubrication equipment
- Diaphragm pumps
- Reciprocating pumps, plunger pumps, air-driven hydraulic horizontal Triplex, vertical 3, 5, 7, and 9 plunger

Zimmerman Handling Systems:

- Pneumatic balancers: Wire rope and chain
- Overhead enclosed track workstation rail systems: Steel, aluminum and stainless steel
- Jib cranes
- End effectors: Standard and custom
- Manipulator arms
- Hydraulic scissors lift tables
- Self contained vacuum lifting systems
- Roll handling systems
- Signature bundle handling systems
- Integrated ergonomic workstations

Brand Names: ARO, CYCLONE, INGERSOLL-RAND, IRGO-PIC, SAMIA, SENSOR 1, TENSOR 1, ELITE, PHOENIX, ZIMMERMAN, ZIMMERMAN HANDLING SYSTEMS, ZIMMERMAN RAIL SYSTEMS, Z LIFT, ZVAC, EZ GRIP, VALU-TRAK, BALANCE-AIR, HOIST-AIR, EQUI-AIR, ZIM-AIR

Manufacturing Locations: U.S. (11), France (2), U.K. (1), Sweden (1)

Address: Tool & Hoist Division, Allen & Martinsville Road, P. O. Box 1776, Liberty Corner, NJ 07938, 908-647-6000

ARO Fluid Products Division, One ARO Center, Bryan, OH 43506-0151, 419-636-4242

Zimmerman Handling Systems, 29555 Stephenson Highway, Madison Heights, MI 48071-2387, 248-398-6200, Fax: 248-398-1374

Engine Starting Systems, 1725 U.S. Highway #1-N, Southern Pines, NC 28387, 910-692-8700, Fax: 910-692-7822

For the nearest sales office call toll free—1-800-847-4041.

For information regarding specific products or services, contact the appropriate division listed below.

Markets: Automotive (OEM), aerospace, electronics, transportation, construction, mining, petro-chemical, appliance, furniture, printing, food, pharmaceutical, marine, offshore oil recovery and defense

Products:

Automated production systems:

- Assembly systems: Custom designed: Transfer, rotary table and single station machines for assembly operation; Specially engineered: Synchronous and non-synchronous transfer lines, carousel, in-line, over and under, lift and carry, roll bar and powered roller, programmable, air logic and solid state control, turn key responsibility; Operations include: Feeding, pressing, function testing, gaging, light metal working, material handling, and fastener assembly
- Automatic production systems
- Test systems: Turnkey systems for engine testing, transmission and major sub-assemblies

Cleaning and finishing systems:

- Standard parts washing systems, conveyorized washers, cabinet washers, immersion/agitation washers, ultrasonic, filtration equipment
- Custom washing systems
- Automation and Material Handling: Power and free conveyors, palletized over and under conveyors, pick and place units, lift and carry transfers.
- Testing systems

Water jet cutting systems:

- Fluid jet cutting system
- 25-100 HP Intensified pumps
- Application software
- 2D/3D motion equipment (Gantry & Robotic)
- Abrasive cutting head/delivery systems

Brand Names: CENTRI-SPRAY, INGERSOLL-RAND, McCARTNEY, MICRO-TAS, MOD-KLEEN, STREAMLINE

**Manufacturing
Locations:**

U.S. (9), France (2), U.K. (1), Sweden (1)

Partially owned companies: ABB I-R Robotized Waterjet-Cutting Systems (Sweden); Instrum-Rand (Russia)

Address:

Cleaning and Finishing Systems, 39001 Schoolcraft Road, Livonia, MI 48150, 734-464-0100

Waterjet Systems, 23629 Industrial Park Drive, Farmington Hills, MI 48335, 316-826-9274

Automated Production Systems, 23400 Halsted Road, Farmington Hills, MI 48335, 248-477-0800

For the nearest sales office call toll free—1-800-847-4041.

For information regarding specific products or services, contact the appropriate division listed below.

Divisions:

- Engineered Pump Group
- Industrial Pump Group

Markets: Hydrocarbon processing, fossil and nuclear power generation, oil and gas production, chemical processing, construction, pulp and paper, water distribution, wastewater treatment, mining, irrigation, pipeline, naval/marine, agriculture, and general industry.

Manufacturing Locations: **Manufacturing, 22 total:** U.S. (8), Canada (1), Europe (10), Latin America (3)
Repair and Service Facilities: U.S. (10), Canada (2), Europe (6), Latin America (3), Asia-Pacific (1)

Joint-venture companies, 2 total: Niigata-Worthington (Japan), Thompsons, Kelly, Lewis (Australia).

Licensees, 1 total: Ingersoll-Rand (India) Ltd.

Products: Pumps for diversified industrial use and specialty pumps for process, power generation, and marine applications. Models manufactured include centrifugal, diaphragm, reciprocating, rotary, and turbine pumps. Pump types offered include utility and high-energy pumps, API-610, ISO and ANSI chemical process pumps, magnetic drive and vertical turbine pumps, sewage and non-metallic pumps.

Brand Names: INGERSOLL-RAND, PACIFIC, WORTHINGTON, PLEUGER, SCIENCO, JEUMONT-SCHNEIDER PUMPS

Address: Ingersoll-Dresser Pump Company, 150 Allen Road, Liberty Corner, NJ 07938,
Tel: 1-800-728-PUMP, Fax: 1-908-604-8195

For the nearest sales office call toll free—1-800-847-4041.

For information regarding specific products or services, contact the appropriate division listed below.

Markets: Oil and gas production; refining; chemical and petrochemical; gas distribution and storage; power generation and energy recovery; paper; steel; mining

Products: **(Gas Compressors)**

Compressors: Air and gas

- Axial-flow: Fluid catalytic cracking, nitric acid plants, blast furnace, integral power recovery plants, refining process and chemical plant applications, expander turbine devices
- Compression services: Contract compression, operation and maintenance, field plant and industrial air and gas compression, pipeline testing, rental or rental/purchase
- Compressor rentals: Air and gas rentals, drilling services, portable air compressors
- Reciprocating Compressors: Air and water cooled, dry vacuum, field gas booster, gas pipeline, high pressure, integral gas, nonlubricated, process air and gas, single and double acting, single and multi-stage, separable gas engine

Dry gas seals

Comprehensive test capabilities

Power recovery expanders

(Turbo Machinery) PLC

Control systems

Power recovery expanders

Gas and steam turbines

Axi vacuum pumps

Brand Names: CLARK/IR, WORTHINGTON, TERRY, TURBODYNE, MOORE, ELECTRIC MACHINES

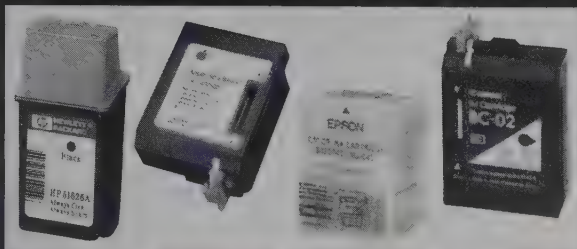

Manufacturing Locations: U.S. (6), U.K., Germany, France, Norway
Repair centers (20 plus): U.S., Canada, Venezuela, Singapore, Belgium, Netherlands, Italy, Scotland, United Arab Emirates (Abu Dhabi), Malaysia

Address: Dresser-Rand, 1200 West Belt Drive North, Houston, TX 77043, 713-467-2221

WE DESIGN AND MANUFACTURE MANY DIFFERENT TYPES OF BOX PARTITIONS.

Cell numbers can range from 1 to 500. Cell sizes range from 1/4" and up. We manufacture using chipboard and corrugated of various thicknesses, tests, grades and finishes. We offer customized slotting, die cutting, and printing.

Every partition and pad we manufacture is a statement of our commitment to quality.

The Worldwide Leader in Material Testing Systems

Shore® Instruments of Instron Corp.: supplies durometers for determining the indentation hardness of elastomers and plastics.

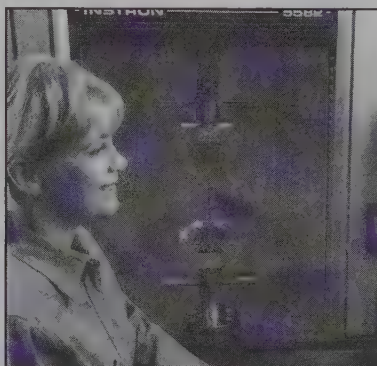

Single source convenience and responsibility for all your mechanical testing needs!

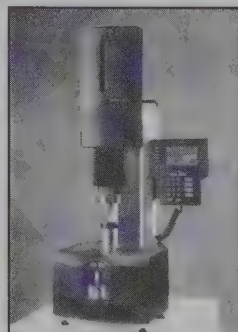

100TR Royall Street
Canton, Massachusetts 02021
Fax: 781-575-5725
<http://www.instron.com>

Instron Corporation is a worldwide supplier of materials and component testing instrument, systems, software, and accessories used to evaluate mechanical properties and performance of metals, plastics, composites, textiles,

ceramics, rubber, biomedical, and adhesives. Instron systems test virtually all earth's natural and man-made materials ranging from fragile fibers to the exotic materials needed for space exploration.

Instron: Materials Testing Systems solutions for tensile, fatigue, and structures testing.
Instron-SFL: High/low temperature testing equipment.

Wilson® Instruments of Instron Corp.: producer of Rockwell®, Brinell®, and Tukon® Hardness Testers.

SEE OUR CATALOG IN THE CATALOG FILE SECTION FOR OUR COMPLETE LINE OF MATERIALS AND HARDNESS TESTING INSTRUMENTS

Industrial Monitors & Computers

Intecolor

- 17", 19/20", 21" CRT Monitors
- 10.4", 12.1", 15", 18.1" & 20.1" Flat Panels
- Variety of enclosures
- Pentium processors
- Variety of form factors
- Cost effective product integration
- Industrial touchscreen experts
- NEMA rated products
- Stainless, carbon and steel enclosures
- ATX Motherboards
- CE marked, UL listed
- Over 25 years of experience
- Servicing a wide variety of industrial applications

Interface
ADVANCED FORCE MEASUREMENT
Load Cells For Every Application

Interface, Inc. is the leader in force measurement. For over three decades, we have devoted our entire resources to the design and production of strain gages, load cells & force measurement systems.

- ▶ **Low Profile™ Experts** - World's largest producer of low profile load cells
- ▶ **Calibration History** - World leader in high accuracy load cells for force measurement
- ▶ **Comprehensive Testing** - Every cell is individually tested and calibrated
- ▶ **Strain Gage Process** - Manufactures self-compensating gages from proprietary alloy
- ▶ **Moment Compensation** - Only company which moment compensates every low profile load cell to minimize sensitivity to extraneous forces
- ▶ **Higher Output** - Only company providing 4 mV/V output on low profile load cells
- ▶ **Tighter Creep Specification** - Cells creep tested to the tightest specification in the industry
- ▶ **NIST Traceable** - All calibrations are directly traceable to NIST
- ▶ **Temperature Compensation** - Temperature characteristics are tested at both low and high temperatures
- ▶ **In-House CNC Machining** - All the load cells' machined components are manufactured on the Interface precision CNC machines
- ▶ **Custom Load Cells** - We work with your staff to design load cells for OEM applications

QUICK-SHIP PROGRAM!
We ship stock items same day for orders placed by noon MST

THE PROBLEM AIR CONSULTANTS

INTERNATIONAL AIR FILTRATION CORPORATION
&
INTERNATIONAL AIR FILTER, INC.

- Consultants in Particulate & Gas Filtration
- Specialists in (1) the removal of particles—smoke to oil mist to pollen—using a wide variety of filter media for high-, medium-, and low-efficiency filtration, and (2) the removal of gases and odors—hydrocarbons, acid gases and other harmful fumes and solvents—using Activated Charcoal, Hydrosil (a potassium permanganate—impregnated oxidizer) or an effective blend of both.
- Products and services include:
 - Air Filtration Systems
 - Clean Air Machines
 - Contaminant Collectors
 - Pipe Insulation Encasement Wrap
 - Air Filters
 - Air Filter Change-outs

ENGINEERING ANSWERS IN ADVANCED CERAMICS

International Ceramic Engineering specializes in the design, fabrication and manufacture of unique components. Our primary objective is to provide these components and associated services in a manner that ensures consistent and reliable performance. The quality process is monitored from design through completion to guarantee an integrated and controlled process. This process yields parts of the highest precision, accuracy, repeatability and quality.

Our commitment to developing markets has continued to fuel the growth of International Ceramic Engineering. We look forward to being of service to you.

- DESIGN SUPPORT
- WIDE RANGE OF MATERIALS
- MANY DIFFERENT DESIGNS
- SERVING MANY MARKETS

Quality is our Commitment to the Customer

international light inc.

LIGHT MEASUREMENT

Instrumentation Since 1965

APPLICATIONS:

Photometry/Radiometry
Phototherapy
UV Curing
Photoresist
Germicidal
UV Hazard
Solar UV
Plant Growth
Laser Power
LED Measurement

- UV-Vis-IR Radiometers
- Photometers
- Spectroradiometers
- Detectors/Filters/Input Optics
- Underwater Capability
- Directly Traceable N.I.S.T. Calibrations

Let us help solve your light measurement problems

Office and printing papers

High-performance linerboards and containers

Impactful Packaging. Inventive Papers. Innovative Products. International Paper.

At International Paper, we're about developing innovative solutions for our customers. In packaging, paper, building products, chemicals and more. This approach has earned us over 1,107 patents that have helped our customers improve the way they do business.

Here are two recent examples. In packaging, our new produce packaging system reduces spoilage, improves appearance and is helping change how fruit and vegetable growers bring fresh produce to market. In building products, a new treated exterior composite trim from Masonite is helping builders because it looks like expensive clear cedar, but without knots, splits or cracks. It's also treated to control wood-destroying organisms and holds paint better than wood.

We have an unmatched list of innovative products available to meet your needs, and we're continually developing new ones. How can we help you?

Give us a call, toll-free, or visit our Web Site.

The Best Finish for All Surface Preparations

At International Steel Wool, we've been manufacturing the highest quality metallic wool products for over 70 years, providing a line of abrasive cleaning and finishing products to meet a wide range of industrial and do-it-yourself needs. Everything from industrial filtering and magnetic separation to scrubbing pots and pans. We also manufacture many specialty items and variations of existing products, as well as offer a complete line of nonwoven synthetic products to handle all your surface preparation needs.

(See adv. page 2106)

Invensys designs and manufactures gas, electro-
mechanical and electronic controls and control
systems for residential and commercial appliances.
Typical applications include controls and control
systems for cooking, refrigeration, laundry,
dishwasher and floor care.

Invensys

Intelligent Automation Division

Invensys Intelligent Automation is the world's leading provider of equipment, software and services used to satisfy the sensor-to-boardroom automation requirements of industrial processes. It markets a number of world-class products, many of which are seen here. Widely recognized as a top-tier automation leader, Invensys Intelligent Automation is fully committed to success through innovative technology, application leadership, and the lifetime support of its customers. Its extensive engineering, customer education and technical services are available in principal industrial cities around the globe.

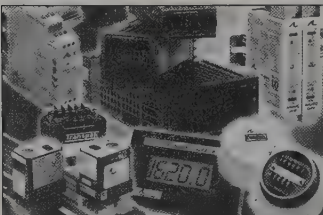

FOXBORO

Measurements & Instruments

- A world-class range of intelligent field measurement and control instrumentation for the processing industries
- Pressure, level, flow, temperature, electrochemical analysis, gas detection, process gas chromatography, process controllers, recorders, and indicators
- A century of innovation, including over 12 years' experience with advanced digital communications

1-888-FOXBORO

www.foxboro.com

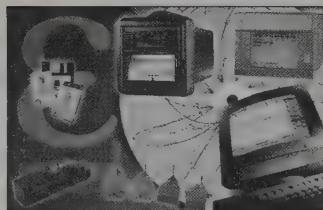

ACTION INSTRUMENTS
An Invensys Company

Instrumentation for process control

- Interface virtually any sensor or signal to a host controller, including PCs, PLCs, DCSs and SCADA systems.
- Accepts RTD, TC, bridge, pot, frequency, LVDT, ohm and AC/DC current and voltage inputs
- Wide ranging, field configurable solutions for maximum flexibility and immediate availability
- ASIC based designs for maximum reliability — lifetime warranty
- Agency approvals include, CE Mark, UL, CSA and Factory Mutual

1-800-767-5726

www.actionio.com

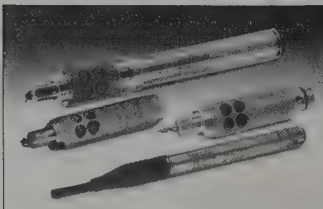

**EUROTHERM
CHESELL**

Data Acquisition, Chart Recorders & Indicators

- Data acquisition units and software
- Graphic, strip, and circular paper recorders
- Process indicators
- Easy to use front panel controls — graphic touch screens
- Fully programmable to simple, factory pre-set instruments
- From one to over 500 universal inputs
- Complete DIN size range
- Internal math, timers, totalizers, counters and logic for advanced data manipulation
- Real time PC view of trending and alarms, remote transfer, and off-line PC configuration

1-800-801-5099

www.chessel.com

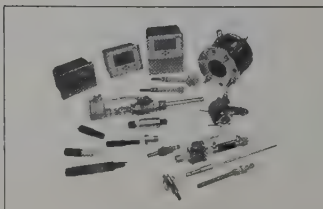

Viatran
CORPORATION

Pressure Transmitter Solutions

- Multiple technologies: bonded foil strain gage, variable capacitance, ceramic and silicon piezoresistive
- Pressure ranges: 2.5" WC to 100,000 PSIG — all pressure formats: gage, absolute, vacuum, and differential
- Distinct special transmitter product families for oil and gas, food and dairy, pulp and paper, fluid power, aerospace and automotive test
- Small size, lightweight, hazardous locations certified, stainless steel construction
- No charge factory stocking of spares for customers

1-800-688-0030

www.viatran.com

FOXBORO

Liquid Analytical Capabilities

- pH, ORP, contacting conductivity, electrodeless conductivity, resistivity, dissolved oxygen
- Broad range of rugged, easily serviceable sensors
- Intelligent line-powered analyzers and loop-powered transmitters
- Easy and flawless configurations and calibrations
- Flexible digital communications
- Application expertise in pulp & paper, power generation, food & beverage, chemicals and many other process industries
- Uncompromised customer service

Dedicated to the development and precision manufacturing of innovative sheet metal processing machinery, systems, and flexible fabricating lines.

The leader in coil sheet metal processing technology. Famous for its Slear automated blanking lines, Iowa Precision offers high tolerance, continuous blanking systems in a broad selection of coil widths and gauge sizes, out put rates, and price ranges.

From coil stock to finished ready-to-assemble parts. Iowa Precision Universal Coil Processors in combination with coil pay off, straightening, slitting, flying shear, pivot shear, feed-to-stop, and stacking modules, all programmable and computer controlled, offer the user a complete manufacturing line. IPI Universal Coil Processors are fully automated sheet metal parts fabricating lines ideal for today's "just-in-time" assembly methods.

Special machines for coil sheet metal processing. Iowa Precision also designs and builds custom systems to meet the specific needs of the user. -Look to Iowa Precision Industries, Inc. for all your coil sheet metal processing equipment needs.

Irving was founded in 1945 and is now a 4th generation family owned business with 44 employees and 25,400 square feet of manufacturing space. We are a member of the INTERNATIONAL ASSOCIATION OF FOOD INDUSTRY SUPPLIERS and the INTERNATIONAL ASSOCIATION OF MILK, FOOD AND ENVIRONMENTAL SANITARIANS, INC. Our expertise includes, but is not limited to the following:

- 3A sanitary and special finishes for stainless steel process equipment used in dairy, food, bio-tech, cosmetic, semi-conductor, photo-chemical and explosive ordnance applications.
- Heli-arc Fabrication of special stainless steel components.
- Custom modification of standard stainless steel fittings, pumps and valves. For example:
 - Addition of NPT or clamp ports - Pump casing drains
 - Stainless Steel 316 L Sweep Elbows 1½"-4" dia.
 - Clustering of diaphragm valve bodies
- Profilometer tape readouts for certification of our finishes from 150 to 1, RA, RMax or Rz.

ISCAR METALS, INC.

INNOVATION

Industry is a beautiful word at ISCAR. Continuous innovations in our products have made ISCAR the world leader in tool and insert design and one of the largest precision tool suppliers in the U.S. and the world. ISCAR METALS, INC. U.S. corporate headquarters and national training facility is strategically located in Arlington, TX., providing efficient and continual support to both ISCAR's regional sales offices and customers from coast to coast. Optimizing the level of service, regional offices are located in eleven areas of the country. Branching out even further, ISCAR's marketing efforts include Product Managers and Sales Technicians serving every state in the U.S.

SERVICE

ISCAR has revolutionized the selection of products with the ISCAR XP-Electronic Catalog on CD-ROM. Extremely user-friendly, the XP-Electronic Catalog gives customers easy access to the myriad of ISCAR products through its "guided search" program. Customers can quickly match tools and parts via-a-vis their particular machining requirements. No prior knowledge of ISCAR is needed. Additionally, the catalog includes a USER GUIDE which visually demonstrates how a tool or insert should be installed, how it should be used, and what kind of performance a customer can expect. Animated diagrams, sketches and all product specs are easily accessible with the click of a button. This product is available to any customer and is part of ISCAR's Internet Options.

SUPPORT

Day by day, ISCAR continues to put new advanced systems in place to support the end-user. ISCAR's commitment does not end with the sell of revolutionary tooling but with a dedication to the manufacturing arena as a whole. Part of ISCAR's responsibility to those in the industry is to provide educational materials and programs. ISCAR holds technical training seminars each month at its National Headquarters in Arlington, TX as well as regional locations throughout the U.S. Focusing on the latest technology available, machine setups, speeds and feeds, market trends and programming techniques these seminars are an important forum for those in the industry to share and discuss economical solutions.

1-877-BY-ISCAR

Meeting the needs of customers, ISCAR brings full line purchasing and product support directly to the end-user, 1-877-BY-ISCAR. This fully automated toll free number routes the caller directly to his closest participating authorized ISCAR Distributor, provides technical support and/or the means to obtain additional information quickly and readily. It provides an easy channel to purchase or obtain information on the many promotional offers available from ISCAR. Providing faster service at reduced rates, a new discounted shipping structure is available to those customers ordering through distributors participating in the 877 program.

Combining ISCAR's knowledgeable sales/marketing team, dedicated distributors and the most revolutionary tools in the marketplace - ISCAR is a true Partner in Product and Service.

When contamination control, sterility & containment management are a concern

IsoTech has the turnkey solutions:

Isolators
Microenvironments
Minienvironments
Glove boxes
Modular cleanrooms
Laminar flow hoods
Biosafety cabinets

Call us for
our free brochure

Cost-effective solutions vs cleanrooms for
contamination control, sterility & containment
management.

- President, Kazuo Itoh
- V.P. United States Operations, Eddie Yamaguchi
- National Sales Manager, Richard Kosik

Established over 50 years ago in Kasai, Japan; specializing in electric motor repair and manufacturing, Itoh Denki engineered, developed and produced the first self-contained motorized conveyor roller (POWER MOLLER®). In the early 1980's, Itoh Denki began marketing the Power Moller® throughout Japan and Europe with limited distribution in the United States. With asset ratings well over 10M, Itoh Denki now offers complete nationwide service with the introduction of its first U.S. manufacturing plant in Wilkes-Barre, Pennsylvania.

POWER MOLLER® The Modern Approach to Conveyor Motorization

The POWER MOLLER® is a self-contained motorized roller available in a variety of sizes including the NEW 1.9" Diameter.

U.S. FACTORY SERVICES & Nationwide Representative Support

(JBC SEALS, PACKING & KITS, INC.—Continued next column)

Your Source for Quality Gasket, Die Cut & Sealing Products

JBC is a full service gasket fabricator, general converter and seal distributor. JBC can manufacture most types of die cut components including thru-cut,

kiss cut and stamped. In addition, we can supply materials with or without foils and adhesives laminated and slit to customer specifications. With a diverse manufacturing base and extensive in-house capability, JBC is your one stop gasket, insulation and sealing super store.

JBC carries all types of sealing components such as o-rings, u-cups, vee packing, lip seals, backup rings and many other standard sealing components. Whenever you need an experienced die cutter, converted or seal distributor, **JBC can help.**

Serving the Automotive, Aviation, Industrial, Health Care, Appliance and Consumer Industries

ISO 9002

JLN Corp. (Liquidations, Buyouts & Appraisals Of Plastics Machinery), 28-T Bowditch Dr., Worcester, MA 01605 (NR) 508-853-4406

Performance at the Highest Level

Telescopic & Articulating Boom Lifts

Electric and dual fuel models with platform heights up to 150 ft. (45.7 m)

Versatile Scissor Lifts

Platform capacities up to 2,500 lbs. (1,134 kg) and platform heights up to 50 ft. (15.24 m)

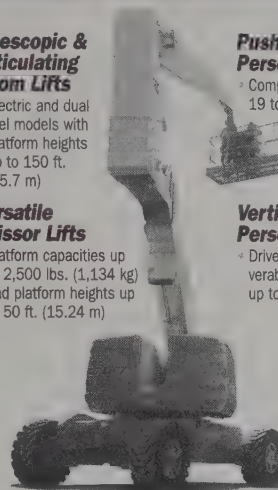

Push-Around Personnel Lifts

Compact models from 19 to 41 ft. (5.79 m to 12.5 m)
New Stock-Picker Model

Vertical Personnel Lifts

Driveable and maneuverable at full height up to 20 ft. (6.1 m)

COMPANY PROFILES

(Asset Rating Explanation, see Inside Front Cover)

- JM CLIPPER CORP.**, 8860 Scranton, Houston, TX 77075
(NR).....800—962-8004
(FAX: 800-256-6677; <http://www.jmclipper.com>)
(Mfr. of Elastograph®, Heat Exchanger, Spiral Wound, Camprofile, Metal & Flexible Graphite Gaskets, Compressed Non-Asbestos Sheet, Flexible Graphite Sheet, Dynagraph® Pump & Valve Packings, COPS® Clipper On-Line Packing System/Injectables For On-Line Pump & Valve Repair, Clipperlon® 2100 PTFE Sheet, Clipperlon® 2100 Expanded PTFE Sheet & Joint Sealant, Flu Duct Expansion Joints, Precision Laser-Cut Specialty Parts, Metal Stampings & Shims, Viton Sheet) (Brs. At Nacogdoches, TX.)
- JM Clipper Corp.** (Elastomeric Expansion Joints For Hot Air & Gas Applications), 403 Industrial Dr., Dept. T, Nacogdoches, TX 75961 (NR) (FAX: 409-560-8993).....409—560-8900
- JM Co.** (Plastic Display Albums, Sheet Holders, Covers), 777 Terrace Ave, Hasbrouck Heights, NJ 07604 (1M-) (FAX: 201-393-0880).....201—869-8200
- JM-CO Plastics** (Plastic Fabrication), 271 Cedar Ln., East Meadow, NY 11554 (NR) (FAX: 516-486-7820).....516—481-6861
- JM Die, Ltd.** (Tools, Dies, Stampings), 909-T Pantera Dr., Mississauga, ON, CAN L4W 2R9 (NR) (FAX: 905-625-2855).....905—625-9571
- JM Engineering Corp.** (Test Clips, Printed Circuit Adapters & Flex Circuits), 2430 Waynoka Rd., Dept. T, Colorado Springs, CO 80915 (Ex.) (NR) (FAX: 719-637-1777).....719—591-1119
- JM Engineering Sales** (Valve Bag Packaging Machines), 1425 Market Blvd., Suite 1320-G8, Dept. 50, Roswell, GA 30076 (NR) (FAX: 770-992-8993).....770—992-8994
- JM Fabrication Corp.** (Sheet Metal Fabrication), 415-T Duncan Perry Rd., Arlington, TX 76011-5412 (NR) (FAX: 817-652-0554; E-Mail: jmfab@jmfab.com).....817—652-0526
- JM Machine & Tool Co. Inc.** (Job Machine Shop), Pine St. Ext., Nashua, NH 03060 (NR).....603—882-8349
- J-M Mfg. Co.** (Formosa Plastics Corp.) (Plastic Pipe), 700-T A Hwy. 59 Loop, Wharton, TX 77488 (NR) (FAX: 409-532-0016).....409—532-5640

- JM METAL SPINNING INC.**, 67-T Rome St., Farmingdale, NY 11735 (NR).....800—557-2069
(FAX: 516-454-8918; 631-454-8918)
(Custom Spinning In Aluminum, Brass, Bronze, Copper, Stainless Steel, Steel, Titanium, Nickel, Pewter, Lead & Other Alloys. Specializing In Prototypes, Short & Medium Size Production Runs. Polishing) (Pres.) Jose Fernandez

- JM Mold South, Inc.** (Builders of Plastic Injection & Die Cast Molds), P.O. Box 1669, Easley, SC 29641-1669 (NR) (FAX: 864-855-0452).....864—855-0450
- JM Paperboard Co.**, 170-T S. Maple Ave., South San Francisco, CA 94080 (Ex.) (NR).....650—589-3757
- JM Precision, Inc.** (Aerospace Machining & Fasteners), 9722-T Topanga Canyon Blvd., Chatsworth, CA 91311 (NR) (FAX: 818-718-7218).....818—718-7370
- JM Screen Printing**, 4585-T Mint Way, Dallas, TX 75236-2013 (NR).....972—330-8101
- JM Springs Co.** (Compression, Extension Springs), 12854 State Rte 45, Lisbon, OH 44432 (NR) (FAX: 330-424-3509).....330—424-3509
- JM Test Systems, Inc.** (Precision Measurement Specialists & Equipment. Repair, Calibration), 7323-T Tom Dr., Baton Rouge, LA 70806 (1M+) (FAX: 225-927-0036).....225—925-2029
- JM Tool Co.** (Machine Work, Plastic & Die Cast Molds), 25 Mason Rd., Brooklyn, CT 06234 (1M-).....860—774-6735
- JM Tool Co.**, 44620-T Macomb Industrial Dr., Clinton Township, MI 48036 (NR) (FAX: 810-469-4476; E-Mail: JMTOOLCOMP@aol.com).....810—469-2374
- JM Transformer Co., Inc.** (Split Bobbin, Toroidal, Power & Isolation Transformers, Autotransformers), 112-T Florida St., Farmingdale, NY 11735 (1M+) (FAX: 631-293-3923).....631—293-0475
- JM Woodworks/Overseas Packaging Co.** (Name changed for 2000 edition. See JMW, Inc./Overseas Packaging Co.)
- JMA Mfg. Co.** (Wire End Caps For Electrical Conductors), 5202-T Verdome Lane, Houston, TX 77092 (NR) (FAX: 713-686-7720; E-Mail: RA dair@Worldnet.att.net).....713—686-2536
- JMAC** (Aluminum Dip Brazing, Welding), 54-T N. Industry Court, Deer Park, NY 11729-4602 (NR) (FAX: 631-667-9104).....631—667-9100

- JMAR PRECISION SYSTEMS, INC.**, 9207 Eaton Ave., Chatsworth, CA 91311 (1M+).....800—793-0179
(FAX: 818-700-8984; E-Mail: salesjpsi@jmar.com; <http://www.jmar-psi.com>; Or Call: 818-700-8977)
(Mfrs. Submicron Positioning & Motion Control Systems, Non-Contact Dimensional Metrology Systems & Video Inspection Microscopes. ISO-9001 Certified. Applications Include Biochip Micro-Array Spotting, Photolithography & QC Inspection; Measurement & Inspection Of BGA/CSP Semiconductor Packaging, Leadframes, IC Microelectronics, Hybrid Circuits, Silicon & GaAs Wafers, Disk Drive Components & Miniature Precision Parts. Positioning Components Include 0.05 Micron To 10 Micron Repeatability Air Bearing, Cross-Roller Bearing & Linear Motor Positioning Stages & Motor Controllers, Motorized Tables, Z-Elevators, Linear & Rotary Stages, & Complete Motion Control Solutions, Custom OEM Or Off-The-Shelf)
Drew Pranzo; Sandy Haeknez
- JMAS Corp.** (Production Order Tracking & Accounting Software), 16731-T Iff Ave., Aurora, CO 80013 (NR) (FAX: 303-873-6508).....303—306-1931

- JMB RECYCLING CO., INC.**, 1401 Davey Rd., Ste. 800, Woodridge, IL 60517 (NR).....630—739-3840
(FAX: 630-739-3842)
(Buyers & Sellers Of Scrap Plastics. Buy/Sell: PVC, Polypropylenes, HDPE, LDPE, Post-Consumer HDPE, HIPS, GPPS, ABS, Cellulose Acetates, Acrylics, Acetyls, Noryls, Polycarbonates, PET, PETG, Nylons, & Polyolefins)
(Pres.) Joel Bittner; (Gen. Mgr.) Brian Ukleja
- JMC Audiovisual Systems Inc.** (Audiovisual & Video Facilities: Projection Front & Rear), 824-T Main St., Studio 2, Peekskill, NY 10566-2047 (NR) (FAX: 914-739-2630; E-Mail: bstone@jmcav.com; <http://www.jmcav.com>).....914—739-2707
- JMC Plastics & Mfg. Inc.** (Injection Molding), 629-T Aldine Mail Rd., Houston, TX 77037 (NR).....281—447-5727
- JMC Products** (Synthetic & Petroleum Coolants), 4717-T Turner Warnell, Arlington, TX 76017 (Br. at Burleson, TX) (NR) (FAX: 817-483-9575).....817—467-7411
- JMC Tool & Mfg. Co. Inc.** (CNC Machining), 845-T Fairfield Ave., Kenilworth, NJ 07033 (NR) (FAX: 908-241-8965).....908—241-8950

- JMD MFG., INC.**, 59-T Fountain St., Framingham, MA 01701 (NR).....508—620-6563
(FAX: 508-620-7563; <http://www.jmd.thomasregister.com>)
(Contract Imprinting Equipment For Automatic Production Line Marking, Including Case Coders, Compact Precision Coders, Production Line Coders, Consecutive Numbering Coders, Miniature Coders, Flexographic WEB Imprinters, & Other Coding & Imprinting Supplies)
(Ex.) (Pres.) Sushil Bhatia; (V.P. & G.M.) Laurel Cameron

John M Frey Company

- JMF Co. (JOHN M. FREY CO.)**, 2735 62nd St. Court, P.O. 868, Bettendorf, IA 52722 (10M+).....800—397-3739
(FAX: 319-332-9880; E-Mail: jmfcompany@aol.com; <http://www.jmfcompany.com>; 319-332-9200)
(Mfr. & Distributor Of Brass, Copper, Bronze Fittings & Nipples, Malleable Iron, Steel Nipples, Valves (Ball, Gas, CPVC, PVC, Plumbing), Copper Tubing, Brass Flare)
(Brs. At Southgate, CA; Kansas City, MO) (Pres., C.E.O.) Max Hansen; (Contr., C.F.O.) Rick Devinney; (OEM Accts. Mgr.) Michael Hays; (Natl. S.M.) Thomas Huck; (Natl. S.M.) Jay Howard; (Ops. Mgr.) Jim Vondran
- JMF Industries, Inc.** (S—The Metal Store) (Machine Work Of Turned Products; Welding), 2885 N-TR U.S. Hwy. 9, Howell, NJ 07731 (Ex.) (1M-) (FAX: 732-363-9201).....732—363-6969
- JMG Machine Inc.**, 13610 Imperial Hwy., Unit 9, Santa Fe Springs, CA 90670 (1M-) (FAX: 562-926-0648)

As the 21st Century approaches, we are witness to technology growing at a remarkable rate. Our investment in quality products insures that you receive quality products, delivered on time.

Our services include:

- **High quality Sheet Rubber in Stock**
Elastomers: Neoprene, ERDM, Hypalon, SBR, Butyl, Pure Gum, Buna-N, Viton, Silicone, Thiokol, C.I. Sheet, Nylon Diaphragm Sheet thickness 1/8" to 3", width to 48"
- **Rubber Belts**
V & Fan Belts, Transmission (flat) Belts, Conveyor Belts
- **Molded & Extruded Products including Compression**
Transfer, Injection Molding, Extrusion, Fabrication and Rubber to Metal
- **Industrial Rubber & Related Products**
In all Elastomers for a wire cross-section of OEM Industries, Rubber Distributors & Gasket Cutters, Custom Rubber Sealing Gaskets, O-Rings, Rubber to Metal, Dual Durometer Sheet Rubber
- **Pipe Couplings**
Join pipes of the same or different metals or materials with axial restraint, with or without surface protection.

CUSTOM DIE CUTTING FABRICATING CONVERTING

Fast Quotes Reasonable Prices Prompt Delivery

"Shaping Your Ideas for You"

One piece or one million pieces, from concept to final product, we provide answers that make you competitive.

With over 50 years of die cutting experience, a complete range of high-speed, automatic presses, and an in-house steel rule die shop, you get the quality and delivery you need. Prototype parts in 1 to 3 days.

As an OEM supplier to the automotive industry, ISO 9000 and QS-9000 define our standards for quality.

Production Services

Product development from prototype to production, both thermal and steel rule die cutting, kiss-cutting, embossing, clear coat lamination, and application of transfer adhesives to any material, rotary die cutting, slitting, vacuum-forming, CAD, EDI, and JIT shipping.

Products

Gaskets, washers, seals, spacers, automotive protective film in pads or rolls, protective packaging, decals, labels, filters, noise and vibration damping pads, advertising displays, magnetic diecuts, coasters, and decorative diecuts and cards.

Materials

Rubber, foam, plastic, film, chipboard, transfer adhesives, vinyl, polyolefin, nitrile, neoprene, fiberboard, EPDM, magnetic sheet and paper.

JADE

ENGINEERED PLASTICS

Capabilities

Jade's leading-edge technologies and manufacturing techniques produce high quality, precision fluoropolymer products for OEMs.

Fluoropolymer Products

Jade supplies custom components and precision parts for bearings, seals, valves, the chemical, food processing, medical, marine, military, electronic, automotive, semi-conductor, environmental and communications industries.

Production Equipment

A 17,500 foot, climate-controlled production facility with a wide array of modern equipment designed for precision processing and molding.

How To Design The Most Effective Parts

This ten-step process will ensure that your fluoropolymer parts achieve optimal performance at the lowest cost.

Sales Representatives Nationwide

Slugg® Portable Drilling Machines

MADE IN THE U.S.A.

Designed for fast efficient hole drilling

Save time and reduce cost using Jancy Engineering's **Slugg®** cutters. With their unique centerfree design, **Slugg®** cutters cut only the outer periphery of the hole, ejecting the remaining center as a solid slug. Regardless of diameter, **Slugg®** cutters produce reamed quality burr-free holes in one operation, eliminating costly pilot holes and step drilling. Holes on curved surfaces and interrupted cuts are easily produced without distortion. By having multiple cutting edges and only cutting the outer periphery of the hole **Slugg®** cutters reduce torque and horsepower requirements. Chip load per tooth is greatly reduced, allowing **Slugg®** cutters a high rate of penetration while improving hole quality and tool life. Tooling is available to adapt **Slugg®** cutters quickly and easily to drill presses, milling machines, mag base drills, and C.N.C. equipment.

Jancy Engineering Company

Quality Cylinders and Swivels That Can Take The Pressure

Quality... a word many companies have tried to define. At Jarp, we know what quality is—we've been setting the industry standard since 1965, and are fully ISO-9001 certified. Jarp offers a complete line of hydraulic cylinders and swivels that have proven themselves to be the best in the industry. If your business depends on quality, reliable hydraulic cylinders and swivels, you should depend on Jarp.

JASON MILLS, INC.

MANUFACTURERS OF KNIT FABRICS

TELEPHONE: (201) 358-6500 FAX: (201) 358-8915
www.jasonmills.com

Jason Mills, Inc. manufactures raschel and tricot knit fabrics. All of the fabrics we manufacture and sell are produced in the United States.

Jason Mills, Inc. was incorporated in 1976 in the State of New Jersey. At that time, it's primary focus was supplying fabric to the headware, lingerie and athletic uniform industries. With obvious changes in domestic manufacturing on the horizon, Jason Mills' marketing efforts became more diversified. By 1980, the fabrics and services offered were more industrial than apparel focused. Although some fabrics are still used by apparel manufacturers our current focus is on industrial and custom fabric applications.

The range of denier yarns utilized in manufacturing the fabrics is from 15 to 1000 denier range. We provide processes of dyeing, finishing, slitting and dye cutting on stock or custom knit fabric constructions. We are a service oriented company that likes to make our customers happy, as we have done for twenty-two years.

"We make things materialize!"
